PROFESSIONAL SUMMARY

Full Stack Developer experienced in building end-to-end web and mobile applications (React, TypeScript, Flutter, FastAPI), including REST APIs, third-party integrations, and database modeling. Proven track record of reducing operational rework through automation and management systems. Experienced with automated testing (Pytest, Jest) and CI/CD pipelines (GitHub Actions, Jenkins), focusing on clean code, best practices (Clean Code, SOLID), and continuous delivery in team environments.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Styled Components, Vite, Context API, REST API Integration

Mobile: Flutter, Dart, React Native

Backend & APIs: FastAPI, Node.js, Python, REST APIs, JWT, Swagger/OpenAPI

Databases: PostgreSQL, MySQL, MongoDB, SQL, Relational Data Modeling

DevOps & Cloud: Docker, Docker Compose, GitHub Actions, Jenkins, CI/CD, Firebase, Render, Vercel

Testing : Pytest, Jest, React Testing Library, Unit and Integration Testing

Automation & AI: n8n, LLM Integration, Business Process Automation

Methodologies & Practices: Scrum, Kanban, Clean Code, SOLID

PROFESSIONAL EXPERIENCE

Full Stack / Mobile Developer — *RGM Tecnologia* · Aug 2024 – Present | Parnaíba - PI, Brazil

- Developed and maintained production-grade web and mobile applications using React, Flutter, and FastAPI across the full lifecycle: bug fixing, feature development, and deployment.
- Built automations with n8n integrated with AI models, reducing time spent on repetitive operational tasks by approximately 30%.
- Designed and integrated REST APIs using FastAPI and Node.js, implementing JWT authentication and internal admin dashboards used daily by the team.
- Applied Clean Code, SOLID principles, and automated testing to the frontend, while configuring CI/CD pipelines with GitHub Actions and Jenkins.

Full Stack Developer (Freelance) — *Centro Espírita Caridade e Fé* · Oct 2025 – Dec 2025

- Developed an asset management system from scratch featuring QR Code asset tracking and a real-time dashboard, reducing manual effort in inventory control.
- Implemented data import/export pipelines and structured a custom Design System with reusable React components.

Mobile / Frontend Developer (Freelance) — *ENEM Prep Study Platform* · Mar 2023 – Aug 2024

- Developed a mobile study application from scratch using Flutter, redesigning the UX flow and increasing user engagement by 30%.
- Implemented leaderboard ranking, progress tracking, and real-time feedback to drive student motivation and retention.

FEATURED PROJECTS

DocFlow AI — Intelligent Document Processing — github.com/matheusconaga/docflow-ai

- FastAPI service for asynchronous document processing (PDF, images, DOCX), featuring an OCR pipeline, semantic search (RAG) using PostgreSQL + pgvector, automated testing with Pytest, and deployment via Docker/GitHub Actions.

Tech Stack: FastAPI, Python, PostgreSQL, pgvector, Docker, GitHub Actions, Gemini AI.

Patrimoniário — Asset Management System — github.com/matheusconaga/projeto_patrimoniario

- React interface built with a custom Design System, QR Code asset tracking, analytics dashboards, reporting tools, and integration with Firebase and Cloudinary.

Tech Stack: React, TypeScript, Firebase, Cloudinary, Styled Components.

PrintLn — Mobile Social Network — github.com/matheusconaga/projeto-println

- Flutter mobile app featuring user authentication, photo posting, commenting, and a real-time feed, consuming a custom FastAPI backend (JWT) with MobX state management.

Tech Stack: Flutter, Dart, FastAPI, PostgreSQL, MobX, JWT.

EDUCATION

Associate Degree in Systems Analysis and Development — Instituto Federal do Piauí (IFPI) · 2025

Technical Diploma in Business Administration — Instituto Federal do Maranhão (IFMA) · 2021

CERTIFICATIONS

Automation with n8n and AI Agents — Udemy, 2026 • Artificial Intelligence: From Zero to Advanced — Udemy, 2026 • User Experience — FIAP, 2025 • JavaScript e TypeScript — Udemy, 2025 • React Native — Udemy, 2024 • Flutter — Udemy, 2024

LANGUAGES

English: Intermediate (Technical reading and documentation)
