PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of experience developing and maintaining production web and mobile applications using React, TypeScript, Flutter, Python/FastAPI, and Node.js. Experienced with REST APIs, PostgreSQL, automated testing, CI/CD, and Docker, as well as workflow automation with n8n and LLM integrations. Contributed to reducing operational rework by up to 40% through process digitization and automation.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Styled Components, Vite, Context API, REST API Integration

Backend & APIs: FastAPI, Node.js, Python, REST APIs, JWT, Swagger/OpenAPI

Mobile: Flutter, Dart, React Native

Databases: PostgreSQL, MySQL, MongoDB, SQL, Relational Data Modeling

DevOps & Cloud: Docker, Docker Compose, GitHub Actions, Jenkins, CI/CD, Firebase, Render, Vercel

Testing: Pytest, Jest, Testing Library, Unit and Integration Testing

Automation & AI: n8n, LLM Integration, RAG, Process Automation

Methodologies: Scrum, Kanban, Clean Code, SOLID

PROFESSIONAL EXPERIENCE

Full-Stack / Mobile Developer — *RGM Tecnologia* · Aug 2024 – Aug 2026 | Parnaíba, PI, Brazil

- Developed and maintained production web and mobile applications using React, Flutter, and FastAPI, working on new features, integrations, bug fixes, and deployments.
- Built and integrated REST APIs using FastAPI and Node.js, connecting internal systems with external services and implementing JWT authentication.
- Reduced time spent on repetitive operational tasks by approximately 30% through n8n automations integrated with AI models.
- Set up CI/CD pipelines using GitHub Actions and Jenkins, automating build, testing, and deployment processes.
- Implemented automated tests and applied Clean Code, SOLID principles, and layered architecture to improve application reliability and maintainability.

Full-Stack Developer (Freelancer) — *Centro Espírita Caridade e Fé* · Oct 2025 – Dec 2025

- Developed an asset management system from scratch, automating asset control processes and reducing operational rework by approximately 40%.
- Implemented QR Code-based asset tracking, an administrative dashboard, and data import/export workflows.
- Built a Design System with reusable React components, standardizing the interface and facilitating the application's continued development.

PRODUCTS & RELEVANT PROJECTS

EducAssist — Intelligent Assistant for Teachers — educassist.com.br

- Product under development focused on reducing teachers' administrative workload through AI, supporting the creation and adaptation of lesson plans, activities, and assessments.
- MVP is currently undergoing user validation and continuous product development.

Stack: React, TypeScript, FastAPI, PostgreSQL, IA/LLMs.

DocFlow AI — Intelligent Educational Document Processing — github.com/matheusconaga/docflow-ai

- API developed as the initial technical foundation for EducAssist, focused on processing and structuring educational lesson plans and identifying information such as class groups, subjects, and content.
- Pipeline featuring OCR, AI-based processing, RAG, and semantic search using PostgreSQL + pgvector.

Stack: FastAPI, Python, PostgreSQL, pgvector, Docker, GitHub Actions, Gemini AI.

PrintLn — Full-Stack Social Network — github.com/matheusconaga/projeto-println

- Flutter mobile application integrated with a custom FastAPI backend, featuring JWT authentication, feed, image posts, comments, saved posts, and profile management.

Stack: Flutter, Dart, FastAPI, PostgreSQL, MobX, JWT.

EDUCATION

Technology Degree in Systems Analysis and Development — Federal Institute of Piauí (IFPI) · 2025

Technical Degree in Business Administration — Federal Institute of Maranhão (IFMA) · 2021

CERTIFICATIONS

Automation with n8n and Artificial Intelligence Agents — Udemy, 2026 • Artificial Intelligence: From Beginner to Advanced — Udemy, 2026

• User Experience — FIAP, 2025 • JavaScript and TypeScript — Udemy, 2025 • React Native — Udemy, 2024 • Flutter — Udemy, 2024
